IT SOUNDS TO GOOD TO BE TRUE; BUT IT IS

**(OWNERS@AUTHORS;JOHN D. TAYLOR AND SON STEVE K. TAYLOR
OF; DISCOVERY IDEA AND PRODUCT INVENTION)**

Nation Wide or World Wide this product is of the most importance, to the public and their business. Also it is a must for the Internet, it could double or tripple all the business on the Internet, from its review from the public. Airline Industries, Trucking Industries, Travel Industries, and Travel Marts... Public Stores; just to name a few. And that's just a small start. All of these would benefit by our Idea and Product Invention.

Our Discovery Idea and Product Invention is worth millions and millions and billions, year after year, after year. We have to get this product out on the market, as soon as possible. Every day it waits to be processed; is one day to long.

I know that patents, copyrights, and trademarks have to be made; and that negotiations, Deals, Legal Aid, Capital Funds, Product Management, and all other things it takes to promote this product, have to be met. But this Product has to be processed and on the market, as soon as possible, before someone in the near future comes up with the Idea like we have; somewhere else. We have the Idea First; Japan, China, all the Far East, the Middle East, any foreign Country would want this Idea. But we have the Idea First. If I can think it, and it works Great, someone else sooner or later could possibly come up with a similar Idea. But we thought of our Idea First. We typed up our plan and Idea and product, and registered and filed our paper work at the Wilbarger, County--Court House--Vernon, Texas. We are in the process of filing for a patent, a copyright, and trademark.

We need Financial Capital, Legal Aid, Negotiators, Product Managers, Promoters, and Distributors. And all things required to promote our Discovery Idea and Product Invention. The profit potential would be more than great, for anyone involved in this undertaking. As I said, the Idea is worth more than you can imagine. (C) ALL RIGHTS RESERVED JOHN D. Summary Story of Invention

How The=Taylor Corp; Pre-Paid Cash Cards=Unlimited
came in to being.

I, John Taylor was sitting at the Computer looking at some car being sold threw the Auctions n Ebay. My son, Steve Taylor came over to see and visit with me. I was showing him on the Computer the car sales. I said, son look at some of the sales of these cars, there are some really good buys on this Auction. But you have to have a Credit Card to be able to buy with. About that time the Phone rang.

Steve said, but I don't have a Credit Card. Why couldn't you just use a Pre-Paid Cash Card to buy something over the internet if you don't have a Credit Card. Something like a Pre- Paid Phone Card or Pre-Paid Phone service.

I said, " Son you could if there was such a thing", but there's not. Thats the best Idea I ever heard, but there is gona be.

So this is how the (*Taylor Corp;Pre- Paid Cash Cards=Unlimited*) came to be.
